LIFE, HANDLED.

Find it. Book it. Buy it. One conversation.

THE OPPORTUNITY

Own the everyday request.

A personal assistant for finding, booking and buying—starting in Telegram.

WHY NOW

Agents can reach checkout.[1]
Our bet: the next race is for the daily habit.

1 / Stripe: agentic commerce

ASK ONCE. GET ON WITH IT.

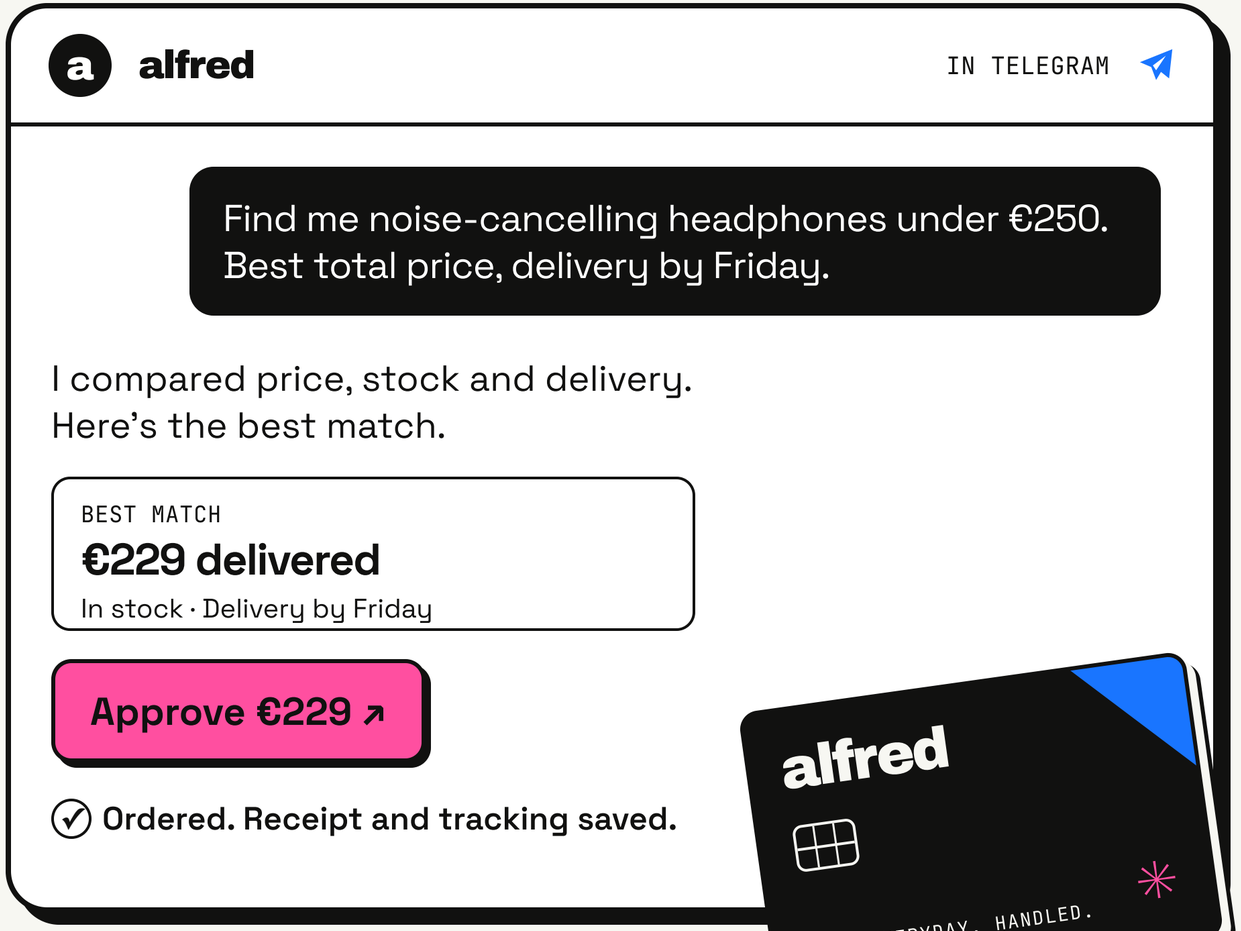

Everyday commerce,
without the tab-hopping.

BOOK
A trip, a table, an appointment.

FIND
Compare prices. Source the right product.

BUY
Approve the choice. Alfred handles checkout.

REQUEST → FIND & COMPARE → YOU APPROVE → ALFRED EXECUTES

Optional Alfred card.
Spending, rewards and loyalty.

ILLUSTRATIVE PRODUCT EXPERIENCE / CARD SUBJECT TO ISSUER INTEGRATION

ONE CORE. TWO WAYS TO GROW.

Start with Telegram.
Bring the same assistant into a bank's own experience.

PROPOSED ARCHITECTURE / FIREFLOW

One execution core.

Memory · Approval · Recovery · Tool orchestration

DIRECT TO PEOPLE

Telegram + Alfred card

A standalone assistant.
An optional branded card.

WITH BANKS & NEOBANKS

Native or white-label

Bank app distribution.
Bank-controlled / on-prem.

THE FIREFLOW FOUNDATION[2]

Built to follow through.

Durable workflows, permission boundaries and execution records—reused across channels.

Alfred adds the experience, commerce connections and card integration.

PROPOSED REVENUE PATHS

A daily habit. Multiple ways to earn.

01 Consumer subscriptions

02 Commerce partnerships

03 Bank licensing + integration

BACK THE FIRST ALFRED PILOT. Prove repeat use, reliable task completion and cost per outcome in one focused category.

ISSUER / MERCHANT INTEGRATIONS AND BANK SECURITY & DEPLOYMENT VALIDATION STILL REQUIRED
